

What we do (Products & Services)

Manufacture of custom-designed plastic articles; installation of process systems; welding of polyethylene and polypropylene; renovation and lining of tanks with plastic; industry-specific training

Repairing systems, tanks, wells and other components on the customer's premises

Lathe machining of thermoplastics up 1000 mm in diameter

Adaptors for joining pipes of any type or diameter

Training courses in welding of thermoplastics

Welding of thermoplastics on the customer's premises or building sites

CNC machining of thermoplastic

WHAT WE DO
PRODUCTS & SERVICES

SPS structured pipes (DN600 - DN3000), with SN2 - SN8 stiffness grades (other stiffness grades and diameters are available upon request)

Drainage system fittings: flap valves (DN100 - DN2000) and gate valves

Free-standing tanks, process tanks and storage tanks approved by the Polish Office of Technical Inspection (UDT)

Underground tanks, retention tanks, storage tanks ($V = 5 - 1500 \text{ m}^3$)

Fittings and other utility transmission items (90 - 1000 mm in diameter, also with special reinforcement)

Cleaning hatches for industrial drainage systems

Selection and installation of industrial (process), water, sewage, drainage, ventilation and fire-safety systems

Corrugated thermoplastic boards with thicknesses ranging from 10 to 140 mm

Tapping tees and collector sewers

Process tanks

Smooth thermoplastic boards with thicknesses ranging from 3 to 140 mm

Sleeves and reducers (50 - 1000 mm)

Cuboidal tanks, free-standing tanks, storage tanks, hot-dip galvanisation baths

PEHD and PP rods (3 to 5 mm in thickness)

Sewage chambers, (water) meter chambers, infiltrator chambers, metering chambers and pumping station tanks

Oil/water separators $Q = 1 - 750 \text{ l/s}$

Lining concrete chambers with thermoplastic boards

Design of and technical advice on thermoplastic structures

Butt-fusion, electrofusion and polyfusion welding of pipelines with diameters ranging from DN20 - DN1200

Grease separators ($Q = 0.5 - 25 \text{ l/s}$)

Watertight couplin $\varnothing 32 - 1000$
